The Avalon Library

This library is a free resource, intended to make valuable, high quality material more available to a wider audience. Please recognize all contributors by donating to them directly, or purchasing their work. Please also note that this is still an experimental project, and so there may be some bugs, or features which aren't yet optimum. If there are any issues concerning copyright, please contact us immediately and we'll remove the files concerned. Our intention is that the library will be continually developed and modified over time.

Our thanks to all the Avalon Forum members — you know who you are — who have supported this venture in many ways. If you're not a member of the Avalon Forum, we warmly invite you to apply to join our community.
